Renee,

It's been very windy here and on Friday it took four tries to get through. All of our internet is connected throughout our reservation. The building across is the clinic which usually takes priority on the server. By the way, that's the server I believe Gina is on. The fact is, we are getting assistance at the Administration building as we bring more band width to our offices.

Hopefully, it all came through. It said complete.

Not sure if you got my text message from my gmail and personnel phone on Friday.

Thank you for all of your assistance.

Cynthia O.

Do I have the latest spreadsheet? I don't see an attachment with your last email.

Great – we'll look for the app.

With the assistance of our new accountant Michael, he helped develop this document for the budget detail portion requested. Now I have the narrative to also add for grants.gov and to meet your requests.

Thank you,

Cynthia O.
